Task Analysis-Subscription Management System Task Analysis

Task Analysis is the process of breaking down how users interact with a **Subscription Management System** into smaller and manageable steps. It helps understand how users subscribe to services, manage their subscriptions, make payments, and cancel or renew plans.

This analysis helps identify user needs, improve system performance, and ensure a smooth subscription experience.

Key Aspects of Task Analysis

- Understanding the tasks performed by users such as subscribing, renewing, or cancelling plans.
- Identifying the sequence of actions required to complete a subscription.
- Analyzing issues such as payment failures, expired subscriptions, or incorrect billing.
- Improving the user experience by simplifying subscription management.
- Ensuring secure payment processing and proper subscription tracking.

User Flow

User Flow shows how users navigate through the **Subscription Management System** to successfully subscribe to a service.

User Flow for Subscription Management System

Start → Open Application → Create Account / Login → Browse Subscription Plans → Select Plan → View Plan Details → Choose Payment Method → Confirm Payment → Activate Subscription → Manage Subscription → Renew / Cancel Subscription → End

User Flow – Step by Step Step 1: Start

- The user opens the application or website that offers subscription services.

Step 2: Open Application

- The system displays the homepage with available services.

Step 3: Create Account / Login

- The user creates a new account or logs in using existing credentials.
- The system verifies user details.

Step 4: Browse Subscription Plans

- The user views different subscription plans such as:
  - Basic Plan
  - Standard Plan
  - Premium Plan

  Step 5: Select

  Plan

- The user selects a suitable subscription plan.

Step 6: View Plan Details

- The system displays details of the selected plan such as:
  - Price
  - Duration
  - Features included

Step 7: Choose Payment Method

- The user selects a payment option such as:
  - UPI
  - Credit Card
  - Debit Card
  - Online Wallet

Step 8: Confirm Payment

- The system processes the payment transaction.

Decision Step:

- If payment fails → Retry payment.
- If payment succeeds → Activate subscription.

Step 9: Activate Subscription

- The system activates the user's subscription plan.
- The subscription validity period is displayed.

Step 10: Manage Subscription

- The user can manage the subscription such as:

○ View subscription details ○

Upgrade or downgrade plan ○ Check

billing history **Step 11: Renew / Cancel**

Subscription Decision Step:

- If the user renews → The subscription continues.
- If the user cancels → The subscription is terminated.

Step 12: End

- The subscription process is completed.
